## The Essentials

---

### The G.O.A.T

**\$ 119**

Combines a full spectrum of essential vitamins & minerals for comprehensive health benefits.

- Comprehensive vitamin & mineral replenishment
- Boosts energy & mental clarity
- Strengthens immune system

---

### Einstein | Nootropic

**\$ 120**

Formulated to kill brain fog and boost cognitive functions through a blend of Sodium Citicoline, Glutathione, and other vital nutrients.

- Clears brain fog & improves cognitive functions
- Neuro-protective benefits
- Stimulates synaptic regeneration

# Recovery Treatment

---

## **Chronic Fatigue** (6 sessions package)

**\$ 650**

Engineered to boost energy, enhance mood, and improve overall vitality for chronic fatigue sufferers.

- Increases energy & motivation
- Enhances mental clarity & mood
- Boosts immune system function

---

## **The Deload**

**\$ 120**

Supports athletes through targeted nutrients that aid rapid recovery.

- Rapid replenishment of amino acids & electrolytes
- Supports recovery & enhances physical performance

# Health Boosters

---

## **Kickstart | Immune Booster**

**\$ 110**

Strengthen your immune system with vitamins & antioxidants.

- Enhances immune response & system health
- Powerful anti-inflammatory effects

---

## **Replenish | Rehydration**

**\$ 90**

Hydrate and revitalize your body, perfect for recovering from dehydration and exertion.

- Quickly hydrates & replenishes essential electrolytes
- Ideal for recovery from dehydration & intense activities

---

## **Catalyst | Metabolism**

**\$ 125**

Boost your metabolism and energy with a powerful blend of vitamins & nutrients.

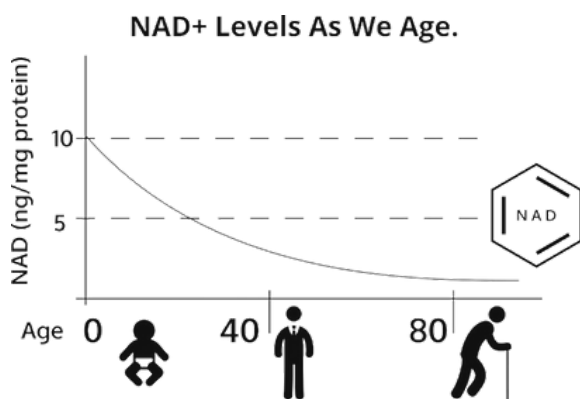

- Supports metabolism and energy levels
- Improves physical and mental performance

# Regenerative Care

## NAD+ Advanced Infusions

**Includes Modified Myers Cocktails, Anti-Nausea & Metformin**

Discover the transformative power of NAD+ (Nicotinamide Adenine Dinucleotide) therapy. As we age, our bodies' NAD+ levels naturally decline, leading to reduced cellular function, increased signs of aging, and heightened oxidative stress. Combat these effects with our premium IV NAD+ supplementation.

- Boosts energy levels
- Enhances mental clarity & mood
- Reverses aging effects
- Restores physical functions
- Pain relief & tissue healing
- DNA repair & inflammation regulation
- Substance withdrawal support

100 MG	\$ 135
250 MG	\$ 225
500 MG	\$ 450
750 MG	\$ 600
1000 MG	\$ 750

### Add-On Options:

GSH Regular Dose (Glutathione 1200mg + Vitamin C 1000mg)	\$ 60
GSH High Dose (Glutathione 2400mg + Vitamin C 2000mg)	\$ 90
Vitamin C 1000mg + Zinc 5mgBoost (per ampoule)	\$ 20
Cerebrolysin for Neurological Support (2 ampoules)	\$ 300

# Cerebrolysin® IV Therapy

A nootropic agent that stimulates neuronal growth, enhances brain metabolism, and promotes peptide synthesis. It offers neuroprotection by shielding neurons from oxidative stress and is commonly used in treating conditions such as stroke, traumatic brain injuries, dementia, and Alzheimer's disease. Cerebrolysin increases levels of brain-derived neurotrophic factor (BDNF), which supports neuroplasticity and further neuroprotection.

- Increases BDNF levels
- Promotes Neuroplasticity
- Neuroprotection
- Cognitive Enhancement

<b>1-Day Treatment</b>	<b>\$ 250</b>
<b>1-Day Treatment</b> (add-on from any IVs)	<b>\$ 150</b>
<b>3-Day Treatment</b>	<b>\$ 450</b>
<b>5-Day Treatment</b>	<b>\$ 750</b>
<b>10-Day Treatment</b>	<b>\$ 945</b>
<b>20-Day Treatment</b>	<b>\$ 1,895</b>
<b>30-Day Treatment</b>	<b>\$ 2,700</b>

A treatment course lasting between 10-30 days can help reverse the effects of a stroke if started within 2-3 hours of the first symptoms. For TBI recovery, a 10-30 day course can dramatically improve cognition. For ADHD symptom reduction, a course of 2 times per week for 5 weeks is recommended.

# Exosomes Therapy

<b>Allocte</b>	<b>\$ 4,500</b>
----------------	-----------------

Delivers over 150 million Mesenchymal Stem Cells (MSCs), 3 trillion exosomes and 1,600 bioactive molecules for tissue repair and regeneration.

- Promotes rapid tissue repair & cellular regeneration
- Modulates immune response & enhances angiogenesis
- Reduces systemic side effects by targeting specific areas

## MATRIX

Regenerates tissues, enhances cognitive function, and reverses aging symptoms with over 3 to 6 trillion exosomes

- Promotes extensive tissue repair & cellular regeneration
- Enhances cognitive function & overall mental clarity
- Potentially reverses symptoms of aging & cognitive decline

<b>1 ML</b> (single purchase)	<b>\$ 3,600</b>
<b>1 ML</b> (2-3 vials)	<b>\$ 3,200</b>
<b>1 ML</b> (4+ vials)	<b>\$ 2,800</b>
<b>2 ML</b> (single purchase)	<b>\$ 4,200</b>
<b>2 ML</b> (2-3 vials)	<b>\$ 3,700</b>
<b>2 ML</b> (4+ vials)	<b>\$ 3,300</b>

## NanoEx

Facilitates cellular communication & regeneration.

- Supports cellular repair and regeneration across various tissues & organs
- Enhances the body's natural healing processes
- Offers a potent solution for degenerative conditions

<b>1 VIAL</b>	<b>\$ 2,500</b>
<b>2 VIALS</b>	<b>\$ 3,000</b>

# Rectal Ozone Therapy

## 5x At-Home Treatments

**\$ 250**

At-home rectal ozone therapy effectively absorbs ozone through the colon into the bloodstream. This method improves oxygen utilization, enhancing circulation, reducing inflammation, and balancing the immune system.

- Detoxification
- Immune system enhancement
- Gut health maintenance
- Chronic inflammation reduction
- Antimicrobial effects

# Wellness Services

## Peptide Therapy

Over 50 high-quality peptides available for **research purposes**, featuring USA-made peptides with unmatched 99% purity.

- Promotes tissue repair & regeneration
- Supports muscle growth & recovery
- Enhances immune function
- Improves cognitive functions & mood
- Provides anti-aging & neuroprotective effects

---

### Professional Training & Guidance for Peptides

**\$ 50**

Comprehensive training to ensure safe & effective peptide therapy administration.

- Detailed training sessions with our expert team
- Guidance on peptide selection & usage
- Safety protocols & administration techniques

---

### Personalized Consultation (pro-rated with peptide order)

**\$ 250**

Tailored consultation to design a peptide regimen based on individual health goals & needs.

- One-on-one consultation with a healthcare professional
- Customized peptide therapy plan
- Ongoing support & adjustments based on progress and feedback

# Advanced Health Data Analysis

At DripDok, we leverage **advanced Python analytics** to deeply analyze your bloodwork, wearable data, and vitals, creating a comprehensive view of your health. Our approach allows us to pinpoint trends and anomalies, measure treatment effectiveness, and anticipate future health concerns with precision.

- Early detection of health issues
- Evaluation of treatment efficacy
- Cost-efficiency by avoiding unnecessary treatments
- Detailed health reports highlighting strengths & areas needing attention
- Actionable insights for optimal well-being

**Contact us today** to learn more and tailor our services to your needs, unlocking a future of unparalleled wellness.

## At-Home HBOT Leasing

Unlock the benefits of Hyperbaric Oxygen Therapy (HBOT) from the comfort of your home. Hyperbaric oxygen therapy helps improve oxygen delivery to tissues, accelerates healing, reduces inflammation, and supports overall wellness.

---

**Monthly Leasing** (includes comprehensive training & support)

**\$ 750**

---

# Ultra-High Purity Products

## NMN Powder

A potent nucleotide designed to enhance cellular health & longevity by increasing NAD+ levels.

- Enhances metabolism
- Reduces jet lag
- Increases energy & focus
- Provides pain relief & tissue healing
- Reduces inflammation
- Supports detoxification
- Protects DNA
- Offers anti-aging properties

Take 500-1000 mg daily in the morning. Consistent usage for a minimum of two weeks recommended. 20 GR suitable for 20-40 servings.

---

<b>Monthly Subscription</b> (20 GR)	<b>\$ 40</b>
<b>Bulk Purchase</b> (20 GR)	<b>\$ 45</b>
<b>Single Purchase</b> (20 GR)	<b>\$ 50</b>

---

## Methylene Blue

A 99.9% USP Pharmaceutical Grade nootropic that improves memory, mood, and longevity.

- Enhances memory & learning
- Provides neuroprotection
- Regulates mood

---

<b>60 ML bottle</b> (5 MG per pipette)	<b>\$ 50</b>
--	--------------

---

- Recommended Dosage: 0.5 – 4 mg/kg
- Cycle Length: Typically 30 days

# Comprehensive Health Optimization Package

Optimize your health with Dripdok's Comprehensive Health Package. Guided by **Dr. Tsveiuk**, an expert in Naturopathic Nutrition, this data-driven program offers personalized, cutting-edge solutions for peak wellness and longevity. Utilizing wearable tech, detailed blood work, and AI analysis, we provide tailored insights and dynamic health plans that evolve with you. Join us on a transformative journey towards your best health

## Data-Driven Insights:

Gain actionable health insights from real-time wearable and lab data.

## Proactive Monitoring:

Prevent issues with continuous monitoring and timely interventions.

## Personalized Care:

Enjoy a tailored health plan that evolves with your needs.

## Proof of Progress:

Track your success with regular, transparent reports.

---

## Quarterly Plan

**\$ 295**

- Includes three months of comprehensive health optimization
- Personalized nutrition and supplement plans
- Lifestyle recommendations
- Continuous monitoring
- Quarterly reviews.

---

## Annual Plan

**\$ 1000**

- Includes a full year of health optimization services
- All the benefits of the quarterly plan plus priority support
- Enhanced monitoring
- Annual Comprehensive Health Audit

## Initial Contact & Scheduling

- **Action:** Client initiates an inquiry or schedules an appointment.
- **Automation Opportunity:** Implement an online scheduling system that effortlessly books appointments, sends confirmation emails, and integrates seamlessly with calendar systems (e.g., Calendly, Acuity Scheduling).

## Pre-Consultation Data Collection

- **Action:** Gather preliminary data, including health history, lifestyle habits, and current concerns via an online form.
- **Automation Opportunity:** Utilize digital intake forms that automatically populate the client's profile within a CRM system (e.g., JotForm integrated with HubSpot, Salesforce).

## Initial Consultation

- **Action:** Analyze the collected data (from wearables, lab results, lifestyle information) to formulate a personalized health optimization plan.
- **Automation Opportunity:** Implement AI-powered health analysis tools that can interpret lab results and wearable data, offering insights or identifying potential areas of concern (e.g., Heads Up Health, Validic).

## Plan Presentation

- **Action:** Prepare and present the personalized health plan to the client.
- **Automation Opportunity:** Use automated PDF generation tools (e.g., PandaDoc, DocuSign) to compile the health plan in a polished format. Automate the delivery of this plan via email, and include a summary video using video messaging tools (e.g., Loom).

## Ongoing Monitoring & Adjustments

- **Action:** Continuously monitor the client's progress through wearable data, follow-up assessments, and consultations.
- **Automation Opportunity:** Set up automated data collection and analysis from wearables (e.g., Fitbit, Apple Health) and integrate with the CRM. Configure automated alerts to notify Dr. Tsveiuk of any significant changes in the client's health metrics that may require intervention.

## Follow-Up Consultations

- **Action:** Conduct regular follow-up consultations to discuss progress and adjust the plan as needed.
- **Automation Opportunity:** Automate reminders for follow-up consultations and create templated communications for these reminders (e.g., through a CRM system like HubSpot).

## Quarterly Review & Plan Update

- **Action:** Conduct a quarterly reassessment of the client's health and update the plan accordingly.
- **Automation Opportunity:** Use the CRM to trigger a quarterly review process that automatically gathers the latest data, highlights areas needing attention, and prepares a draft of the updated plan for review

## Annual Renewal or Plan Upgrade

- **Action:** At the year's end, discuss the renewal of the annual plan or explore upgrade options.
- **Automation Opportunity:** Streamline the renewal notification process with automated emails, offering easy, one-click renewal or upgrade options via email or a client portal.

## Reporting & Documentation

- **Action:** Regularly provide the client with reports on their health metrics and progress.
- **Automation Opportunity:** Automate the generation and distribution of monthly or quarterly reports, summarizing progress using data visualization tools

## Client Feedback and Testimonials

- **Action:** Gather feedback and testimonials to enhance the service and support marketing efforts.
- **Automation Opportunity:** Send automated feedback requests after key milestones using survey tools (e.g., SurveyMonkey, Typeform) and encourage satisfied clients to leave reviews.

# Summary of Automation Opportunities

### Scheduling & Reminders:

Streamline appointment booking, reminders, and follow-ups.

### Ongoing Monitoring:

Integrate wearable data and set up alerts for critical changes.

**Data Collection:** Use digital forms and wearable data integration to enhance data collection.

### Reporting:

Automate the creation and delivery of health reports.

### Data Analysis:

Leverage AI-driven tools for health data analysis.

### Client Feedback:

Streamline the collection of feedback and testimonials.

### Plan Presentation:

Automate the creation of professional PDFs and video summaries.

By automating these processes, Dripdok can enhance operational efficiency, boost client satisfaction, and allow **Dr. Tsveiuk** to concentrate on delivering personalized care, while the system handles routine tasks seamlessly.
